DESSANGE PARIS' EXPERTISE IS EVOLVING

DESSANGE Paris is completing its **ÂGE PERFECTION**, **HAUTE CORRECTION** and **INFINIE FERMETÉ** routines with three new facial serums developed to target the main skin concerns related to the visible signs of ageing.

Made from **98 to 99% ingredients of natural origin**, these formulas contain active ingredients that were carefully chosen to ensure product efficacy and fit seamlessly into each routine.

Their three targeted actions meet the needs of skin weakened by age: combatting the signs of ageing, revealing the skin's radiance and restoring skin firmness and tone.

DESSANGE PARIS FACIAL EXPERTISE

ÂGE PERFECTION

Anti-age & nourishing action

HAUTE CORRECTION

Anti-wrinkle
Perfects & unifies

INFINIE FERMETÉ

Smooths & firms

THE ÂGE PERFECTION RANGE

An expert routine targeting the visible signs of cutaneous ageing.

Developed to treat the main visible signs of cutaneous ageing, the **ÂGE PERFECTION** range cares for skin weakened by age with an expert routine targeting wrinkles, dark spots, loss of firmness, dullness and dehydration. The formulas combine active ingredients chosen to leave skin looking smoother, more youthful and radiant, and facial features rested.

Now, a **new Global Anti-Ageing Serum** is joining the range, fitting perfectly into the AGE PERFECTION daily routine.

ÂGE PERFECTION: THE GLOBAL ANTI-AGEING SERUM

Acts on the 5 markers of cutaneous ageing

Fine lines and wrinkles · Dark spots · Reduced firmness · Dullness · Dehydration

EXPERT ACTIVE INGREDIENTS

- High and low molecular weight hyaluronic acids
- Bakuchiol
- Bioactive ceramide
- Plant-based collagen
- Phospholipid

THE RESULTS

✓ **100%** of users found their skin was hydrated*

✓ **81%** found their skin was smoother*

✓ **86%** found their skin was firmer*

✓ **10%** decrease in the appearance of dark spots after 28 days**

✓ **6%** decrease in the severity of the glabellar wrinkle after 28 days**

*** Use test under dermatological supervision** (self-assessed results by 21 female volunteers after 28 days of use, morning and evening).
**** Clinical score** (assessment conducted by an expert on 21 women).

THE HAUTE CORRECTION **RANGE**

An expert routine to correct blemishes and reveal the skins radiance.

The **HAUTE CORRECTION** range was developed to target wrinkles, blemishes, dilated pores and uneven skin tone. Intended to improve skin quality, it acts simultaneously on wrinkles, radiance and skin uniformity to leave skin smoother, clearer and more radiant.

The range is now welcoming a **new Perfecting Anti-Wrinkle Serum**, developed to fit perfectly into the HAUTE CORRECTION routine.

HAUTE CORRECTION: THE PERFECTING ANTI-WRINKLE SERUM

For smoother, clearer, more radiant skin

Developed to simultaneously target wrinkles, radiance and skin uniformity.

EXPERT ACTIVE INGREDIENTS

- Vitamin C derivative
- Zinc gluconate
- Wasabi extract

THE RESULTS

✓ **95%** found their skin was more uniform*

✓ **95%** found that pores were tighter*

✓ **91%** observed a reduction in blemishes*

✓ **20%** decrease in the appearance of dark spots**

✓ **12%** decrease in the severity of the glabellar wrinkle**

*** Use test under dermatological supervision** (self-assessed result by 22 female volunteers after 28 days of use, morning and evening).
**** Clinical score** (assessment conducted by an expert on 22 women).

THE INFINIE FERMETÉ RANGE

An expert routine targeting skin firmness.

The **INFINIE FERMETÉ** range targets the signs of ageing caused by the decrease in collagen. It treats skin that lacks firmness, tone and elasticity with products formulated to smooth, boost suppleness and help redefine the facial contours.

The range has now been extended with a **new Firming Smoothing Serum** developed to fit perfectly into the INFINIE FEMETE routine and meet the specific needs of skin that lacks firmness.

INFINIE FERMETÉ: THE FIRMING SMOOTHING SERUM

Leaves skin smoother, firmer and more toned

Developed to target the signs of ageing related to decreased collagen levels.

EXPERT ACTIVE INGREDIENTS

- Collagen peptides
- Baobab extract
- Chestnut polysaccharides

THE RESULTS

✓ **86%** found their skin was smoother*

✓ **82%** found their skin was firmer*

✓ **82%** found that their skin looked radiant*

✓ **77%** found that their skin was more toned*

✓ **8%** decrease in the severity of the glabellar wrinkle after 28 days**

*** Use test under dermatological supervision** (self-assessed results by 21 female volunteers after 28 days of use, morning and evening).
**** Clinical score** (assessment conducted by an expert on 21 women).
